Research Summary

Research scientist working on video and world models, controllable generation, 3D vision, human motion, and embodied AI. My experience includes social world models, scene-aware video generation, multimodal learning, physics-based simulation, and generative-model evaluation.

Research Experience

Meta Sausalito, California
Research Scientist Intern — Social World Models Apr 2026–Sep 2026

- Research predictive models of people, interactions, and behavior in visual environments.
- Develop generative and predictive representations for socially grounded world understanding.

Adobe Research London, UK / Bengaluru, India
Research Scientist Intern — Video Generation & 3D Vision Apr 2024–Oct 2025

- Led TrajectoryMover, a scene-aware video editing method for moving object trajectories from simple first-frame controls.
- Developed 3D texture-aware diffusion representations for open-vocabulary clothing and body-part parsing.

Sony Research Kyoto, Japan / Remote
Ph.D. Intern — Creative AI Apr 2025–Mar 2026

- Worked on multimodal generative AI, dense video captioning, and AI systems for creative applications.

Max Planck Institute for Intelligent Systems Tübingen, Germany
Guest Scientist — Generative Human Motion Sep 2022–Dec 2024

- Developed AMUSE, a latent-diffusion model for controllable emotional speech-driven 3D body animation.

Electronic Arts SEED Stockholm, Sweden
Ph.D. Intern — Digital Humans Oct 2024–Mar 2025

- Researched expressive digital humans and generative AI for interactive experiences.

Education

KTH Royal Institute of Technology, Stockholm, Sweden
Ph.D. in Computer Science 2021–2026

RWTH Aachen University, Aachen, Germany
M.Sc. in Mechanical Engineering 2017–2020

COEP Technological University, Pune, India
B.Tech. in Mechanical Engineering 2010–2014

Technical Skills

Generative AI: diffusion models, video generation, multimodal models, controllable generation, model evaluation
3D Vision: PyTorch3D, Blender/bpy, Bullet Physics, SMPL-X, Unreal Engine, human parsing
Engineering: Python, PyTorch, Ray, FFmpeg, AWS, Git

Selected Honors

ACM IVA Best Paper Award (2025) | Marie Skłodowska-Curie Fellowship (2021–2024) | LBNL Fellowship (2019–2020)
